***Creation and Promotion of techNL's
Creators at the World's Edge Podcast Series: Season Two***

Date of Issue: September 6, 2023
Submission Deadline: September 20, 2023 at 12:00 pm (noon) NST

Introduction & Purpose

The Find Your Future in Tech program is a \$27M training and upskilling program with 11 training partners in Newfoundland & Labrador that was launched in February of 2023. Funded in part by Employment & Social Development Canada, the program is primarily intended to train and upskill people for high-demand technology jobs, with a focus on equity priority groups. This program is critical to the future of the technology industry in Newfoundland & Labrador and is the largest program of its kind administered in the province.

As part of this project, funding is allocated for marketing and promotion of our province's tech sector. techNL is planning to do this in a variety of ways, including the creation of a second podcast season to build on the success of our inaugural *Creators at the World's Edge* podcast series.

On the heels of the techNL re-brand in 2021 and amid the COVID-19 pandemic, the *Creators at the World's Edge* podcast project was launched as part of a larger effort to generate enthusiasm and awareness of both techNL and the thriving technology sector in Newfoundland and Labrador. The 15-episode podcast showcased the province's technology sector in a fresh new way and provided engaging, reusable content that:

- **communicated** the growing trajectory of the sector.
- **inspired** more people to explore the potential of the tech sector.
- **celebrated** the incredible work taking place here in Newfoundland and Labrador.

This RFP process will result in the selection of a proponent that can work with techNL, its stakeholders and member companies to create 15 new podcasts for season two of *Creators at the World's Edge*.

About techNL

techNL is a not-for-profit membership association that enables a thriving innovation-driven economy in Newfoundland and Labrador. techNL provides visibility, business growth services and a collective influential voice to the tech sector in Newfoundland and Labrador with a vision to make Newfoundland and Labrador the most sought-after Canadian tech ecosystem, globally recognized for its collaborative community, diversity and quality of life.

A key focus on business growth includes programming and services to support talent pipeline expansion, member connections, digital transformation and ecosystem development in Newfoundland and Labrador. More information can be found at www.technl.ca.

Background

This Request for Proposals (RFP) is being undertaken to work with techNL to create a second season (15 unique podcasts) of the *Creators at the World's Edge* podcast series. While the theme is still being considered, there will be a focus on featuring Equity Priority Groups which will be heavily seeded in Diversity, Equity, Inclusion and Accessibility principles. This aligns with techNL's values and with the Find Your Future in Tech program. Similar to the first season, the podcasts will focus on the 'story behind the story' to share interesting vignettes, challenges, failures, and personal anecdotes that will appeal to the broader public and

help share the success of the tech sector in Newfoundland & Labrador in an engaging, creative and relatable manner.

Scope of Work

This second season will follow an aligned approach to the first season. The primary graphics will remain similar but with a refreshed and updated look for the new season. This project is divided into two sections:

- A. Podcast Production and Implementation;
- B. Graphics, promotional content, communications strategy and delivery.

Proponents can bid on both sections or just part A or B. techNL reserves the right to award both parts A and B, or only part A.

A. Podcast Production & Implementation

- Connect with potential podcast guests, based on techNL's recommendation.
- Create a schedule for recording.
- Work with techNL to help identify a host for the series.
- Podcast setup, graphics and syndication.
- Podcast production for 15 unique podcasts: talent/voice recording, sound mixing, scripting, and production management using a techNL look and feel. No travel will be required.

Platform direction and implementation including uploading podcasts to relevant platforms, including the techNL website media page.

B. Graphics, Promotional content, Communications strategy and delivery

- Marketing / Promotion Tactics
 - a. Assets/Images to promote the podcast series:
 - A refreshed version of the podcast image to clearly show season two.
 - Newsletter - one banner and one smaller square image.
 - Website (one banner and one square image).
 - Social media – generic ads (one each for Facebook, Instagram, LinkedIn, TikTok and X).
 - YouTube (one banner).
 - b. Social media shareables for each podcast - three 20-30-second audio clips with photo graphics for promotion.
- Develop a communications strategy to showcase the podcasts and obtain visibility both here in the province, nationally and internationally (targeted), potentially working with a media partner. National and international locations will include locations that are strategic for techNL (for example, for talent recruitment or promotion of Innovation Week).
- As part of the communications strategy include a plan to obtain earned media both in the province and nationally.
- Implement the strategy (e.g. place ads for CAWE on other podcasts, etc.).
